

For Texas by Texans, TXC is a fast & inexpensive mineable blockchain-based cryptocurrency designed for generations of honest trade.

DISCLAIMER

Cryptocurrencies are not traditional investments and can be highly volatile. Prices, including Bitcoin, can rise or fall significantly, sometimes in a very short time. Crypto is designed to be a currency for trading and using goods or services, but like many new technologies, it can also be speculative. Purchasing TextitCoin (TXC) is speculative, and you should only put in what you are comfortable potentially losing. Think of it more like trying a new, experimental technology, you might benefit, but there are risks. This presentation is for informational purposes only and is not financial advice.

PROBLEM

INFLATION

Since 1913 (start of Federal Reserve), the dollar has lost 99% of its purchasing power.

CENTRALIZATION

Centralized banks have become our 3rd-party verification ledgers on all money transactions (in dollars) between two parties.

DE-CENTRALIZATION

Precious metals (gold, silver & copper) and cryptocurrencies have become alternatives to banking system to hedge against inflation. Blockchain becomes a public ledger for crypto transactions.

LOSING FOCUS

Bitcoin, Ethereum, Litecoin, meme coins, etc. have lost its main purpose: to become a usable alternative currency to purchase goods & services with no 3rd-party involvement.

SOLUTION

USABLE CRYPTO

Create a alternative crypto coin that is a viable usable currency to purchase goods and services.

LIMITED MINING

Create the largest decentralized crypto mine in the state of Texas and individual homes as members.

CROWDSOURCING

Enlisting the services of a large number of members, either paid or unpaid, via internet and ads.

LEVEL PLAYING FIELD

Limit the ability for whales (fat pockets) to buy all the miners and then dump coins for profit.

COIN OVERVIEW

UNIQUE

Digitally mined in Texas only; max buy per person is 9 miners. There has been no pre-mine of coins (making them out of thin air).

TRULY DECENTRALIZED

Put control of crypto back in the hands of individuals and away from mega-corporations, banks and foreign nations.

MEMBERSHIP BASED

TEXITCoin is the perfect rocket for your crypto journey where you connect with folks just like you through crowdsourcing membership.

AUTHENTIC

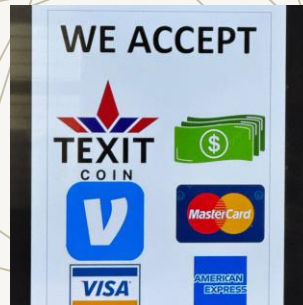

Peer-to-peer Layer 1 blockchain clone of Litecoin (over 3 times faster mining block rate than Bitcoin).
